OFFICE RISK ELIMINATED

Why Firms Replace Shared Paper Logbooks

- Staff Turnover Loss: Departing paralegals or closers never walk out with the office's only paper notary book.
- Zero Open-Page Exposure: Signers never see prior clients' names, property addresses, or estate matters.
- Audit-Ready Uniformity: Eliminates illegible handwriting, truncated hyphenated names, and missing ID dates.

STANDARDIZED FIRM SAFEGUARDS

Built for Closing Rooms & Legal Desks

- AAMVA PDF417 & MRZ Scan: Captures full untruncated legal names from US driver's licenses & passport cards.
- Face ID / Touch ID + 100% Offline: Encrypted on-device storage works in courtrooms, hospitals & vaults.
- Refusal Logs & Line-Item PDFs: Red-highlighted refusal entries and single-act subpoena exports in one tap.
